Question- Create a bonus page on the pixi canvas or any other, as you can see in the attached screenshot.
a) Fix the 6 icons on the bonus background and all icons should be clickable.
b) On which icon you clicked the icon should smoothly 10% increase in size and display a win. When any icon is clicked it will award a win from this array [100, 200, 300, 400, 500, 600] randomly but the win value should not be repeated when you click next icon. All icons should award wins from the array randomly and non-repeating.
